

Cobra **MARINE[®]**

Cobra Marine Products

Hit the Water

Cobra's fixed-mount marine radios are an essential out on the water. Built-in GPS sends distress signals from exact locations while 24 hour access to emergency alerts and NOAA weather broadcasts keeps you informed, prepared, and aware.

Cobra's lineup of portable power products can jump starter your boat, power your portable electronics, and even add the convenience of home appliances to your boat.

MR F77 GPS

The Cobra MR F77 is a truly unique VHF radio with its large LCD display and an integrated GPS receiver offering a life saving solution right out of the box. If a user sends a vessel Distress, their EXACT position will be sent to the rescue authorities. The selectable 1 or 25 Watt output is perfect for short range or long range communication.

MR F57

The Cobra MR F57 is a powerful VHF radio with its large LCD display, selectable 1 or 25 Watt output is perfect for short range or long range communication. Included is Cobra's exclusive Rewind-Say-Again® digital voice recorder, Plug N Play External GPS receiver capable (using the optional Cobra C.P.S. CM 300-005), 4 softkeys positioned at the bottom of the LCD to allow the user to easily activate and navigate through menus.

Built-In GPS Receiver

Simply power on and your VHF radio will instantly know your location for sending signals in moments of distress.

Rewind-Say-Again®

Automatically records the last 20 seconds of VHF calls so you can always play back what you missed.

PA Output

Communicate with boaters around you with a PA function to external speaker.

Rewind-Say-Again®

MR F45-D

The Cobra MR F45 is a full function DSC-capable VHF radio. The selectable 1 or 25 Watt output is perfect for short or long-range communication. This unit has features usually reserved for more costly VHF radio units including Dual Watch, an adjustable backlight, and function keys on the mic.

MR HH600 GPS

The Cobra MR HH 600 VHF radio with GPS & DSC is Cobra's first handheld radio that shows your GPS coordinates and automatically transmits them with DSC calls to notify the Coast Guard or other vessels of your exact position in case of emergency. This life saving radio also features a floating orange core so it's easy to see in water and has a built-in flashlight and emergency strobe.

Digital Selective Calling

Class-D DSC allows you to send distress signals at the touch of a button and exchange position information with other boats or stations.

Dual Output Power

Choose between 1 or 25 watt output power for short or long communication.

US, Canada, & International Channels

Operate on any of the three established channel maps for these areas.

Built-In GPS Receiver

See your GPS coordinates on screen and automatically send your exact location with DSC calls.

Bluetooth® Wireless Technology

Keep your phone safe and dry by making calls directly from your radio with added Bluetooth® capabilities.

Floating Design

The orange core floating design means easy retrieval if dropped overboard so you never lose your radio.

NOAA Weather

Get instant, 24 hour access to national All-Hazards and weather information on 10 NOAA weather channels.

Weather Alerts

Audible tones and a visual alarm alert you to nearby threatening weather.

FCC Compliant

Compliant with the latest FCC Specs for Class-D VHF Radios.

Rewind-Say-Again®

Automatically records the last 20 seconds of VHF calls so you can always play back what you missed.

Selectable Power

Select between 1, 3 and 6 watts of output power for short and long range communication.

Illuminated Display

Crystal clear, illuminated display makes it easy to read your radio.

*The Cobra MR HH600 GPS is available in both black and white

MR HH500 FLT BT

The MRHH500 is our legacy handheld VHF radio and now features Bluetooth® connectivity so you can make and receive calls right from your VHF radio. Get access to all NOAA weather channels and Cobra's Rewind-Say-Again® feature so you never miss a VHF call.

MR HH450 All-Terrain-Radio™

The MR HH450 is an All-Terrain Radio™ for year round, multi-purpose use. This compact floating unit features Rewind-Say-Again®, GMRS channel dual-band functionality, and Cobra's core VHF radio features like noise canceling microphone and NOAA weather.

Bluetooth® Wireless Technology

Keep your phone safe and dry by making calls directly from your radio with added Bluetooth® capabilities.

Rewind-Say-Again®

Automatically records the last 20 seconds of VHF calls so you can always play back what you missed.

Floating Design

The orange core floating design means easy retrieval if dropped overboard so you never lose your radio.

Noise Cancelling Microphone

Block out background noise and have more clear conversations.

6 Watt VHF

Select between 1, 3 and 6 watts of output power for short and long range communication.

Selectable Power

Get different options for low, medium, and high power for various range of communication.

All-Terrain Radio™

Designed for use on boats, ATVs, snowmobiles, road trips, and anywhere else adventure takes you.

Weather Alert with S.A.M.E

Stay alert and informed with weather and emergency alerts only when a threat is nearby.

Rewind-Say-Again®

Automatically records the last 20 seconds of VHF calls so you can always play back what you missed.

Floating Design

The MR HH450 is designed to float so you never lose your VHF radio if dropped overboard.

Easy Retrieval

The orange core design makes it easy to spot and retrieve your floating radio if dropped.

Rugged Case

The matte case is designed for extreme durability.

*The Cobra MR HH450 All-Terrain-Radio™ is available in both black and camo

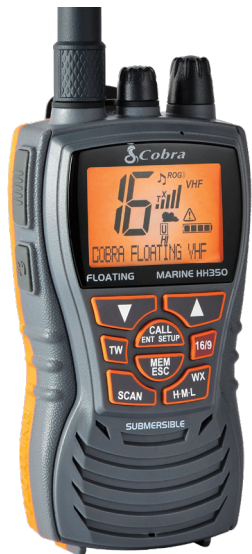

MR HH350 FLT

The best value in our handheld VHF radio line up! Backed by 50 years of Cobra quality, this floating radio has an orange core for higher visibility and is easy to retrieve if dropped overboard. It features 6 Watts of power for longer range communications and full access to all NOAA weather channels.

MR HH150 FLT

The MR HH150 FLT is convenient and quality built. The entry level, handheld floating radio is anything but basic. The large display, signal strength indicators, and maximum range give you unmatched reliability and peace of mind.

6 Watt VHF

Select between 1, 3 and 6 watts for short and long range communication.

Backlit Display

Backlit, easy-to-read display for ease of use in all conditions.

NOAA Weather

Instant access to national All Hazards and weather information, 24 hours a day, and alerts if threatening weather is nearby.

USA, Canada & International Channels

Allows operation on any of the three different channel maps established for these areas.

Noise-Cancelling Microphone

Blocks background noise for clearer conversations.

Floating

Never lose your radio - floating design and orange core make retrieving your radio easy.

Floating Design

The MR HF150 is designed to float so you never lose your VHF radio if dropped overboard.
